Alzheimer's SERVICES of the Capital Area

Charlie's PLACE

The Respite Center II

Dear Caregiver:

Charlie's Place Respite Center is a unique environment of respite care for Alzheimer's and memory related dementia affected individuals. As such we partner with several higher education institutions and professional schools including but not limited to LSU, Southern University, Southeastern University, Our Lady of the Lake College, Baton Rouge Community College, Camelot College and Virginia College. Students from these schools participate in observation and engage in the care program to learn best-practice methods of care in the social model respite program.
The research done is very important and provides evidence-based data to support advancing care in the dementia arena.

Additionally, the organization is involved in active research programs and projects with doctoral candidates. The candidates conduct a variety of research studies through observation of the clients at Charlie's Place. Clients of Charlie's Place Respite Center can only be included in these observations with the consent of the client if he or she is able to consent or consent of the caregiver. The observations will not intrude on the client in any way. Participation is voluntary and clients are not identified by name. It is not our intent to burden caregivers with additional consent forms with each observational study done.

The attached consent form gives Alzheimer's Services and Charlie's Place Respite Center consent for ongoing and new observational studies at Charlie's Place to be conducted. Information will be sent to notify caregivers of specific studies and identify the doctoral candidate and institute involved but new consent forms will not be required and caregivers may have the option to submit a request for a client to be omitted from a specific study. This form has been approved by an Independent Research Board that ensures it meets current consent standards.

Occasionally research projects will also involve the caregivers. Participation for the caregivers is voluntarily and will always be requested before a project is begun. We encourage you to consent to observational studies conducted at Charlie's Place Respite Center.

Respectfully,

Barbara W. Auten
Executive Director

Dana Territo
Director of Services

Emblem engraving

In an emergency, response personnel need to be aware of your loved one's critical medical information in order to treat them correctly. Their MedicAlert + Safe Return jewelry will be engraved with their member ID number and our 24-hour emergency response number to enable responders to assist your loved one immediately. To help assure you receive thorough, accurate treatment, the condition our trained staff deems most relevant to your medical needs in an immediate emergency treatment will be engraved on the jewelry.

Please note: Once your jewelry has been engraved and shipped, there will be an additional charge for any changes requested. Jewelry engraving is personalized to individual members and cannot be transferred to another individual, altered, sold or returned.
